

HOW TO EMBED/LINK FROM YOUTUBE

1. Go to www.YouTube.com.
2. Sign in.
3. Go to your channel and click on your video.
4. Find the box to the right of the Video (this should have your channel name, description of the video, and a *Subscribe* button).
5. Under the description, you will find the URL and EMBED text boxes.

TO LINK:

6. From the URL text box, select the text and copy/paste the HTML code applicably (**Sample:** My favorite author is Steve Alten!). Typically done with HTML editors, though many blogs and MySpace pages allow this; also Twitter and Facebook feeds/status updates (http://...).

TO EMBED:

7. From the EMBED text box, select the text and copy/paste the code into your blog, website, MySpace and Facebook pages (and anyplace else that allows embedded videos!)
